An independent survey was made recently among professional men and women-lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke.

"The Voice of Experience" verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies - a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.

"My voice is my career. It has inspired more than five million people to confide in me their personal problems. During 25 years, first on the lecture platform and then on the air, I have never missed a single engagement because of my throat. I am a steady smoker, and because my throat and voice are vital to my career I insist upon a light smoke. In Luckies I find a light smoke plus the enjoyment of fine tobacco . . . and that's why Lucky Strikes have been my choice for 14 years."

Parenthetically, perhaps these two no longer classify as Republicans, but they always professed to be until lately; their final severance of a nominal G. O. That is why his remarks rankle. It is not what he says. It is the zine article declaring that prominent are broadcast in a fashion that makes them seem to come directly from headquarters.

Rather, I would say, the White House might be endeavoring to build a backfire in opposition to the Michigan injunction against sitdown strikers.

Moreover, Senator William E. Borah's outburst in defense of the United States supreme court preceded the presidential message very shortly. It is conceivable that the White House deemed it desirable to administer, as speedily as possible,

Maybe, because of Borah or Michigan or Dr. High, he administered it a little sooner than he originally had intended to, but undoubtedly he had it about ready.

Borah, High and Michigan probably were mutually contributing influences. Yet the least of these influences was Dr. High, if my guess is any good.

All the same, Dr. High seems to me to have stirred up a considerable rookus for one rather small caliber individual.

Your Income Tax In A Nutshell

EXEMPTION ALLOWED STATE EMPLOYEES

The compensation of officers and employees of a state or any political sub-division thereof, which is paid from public funds of the state or political subdivision, as distinguished from amounts collected from individuals or private corporations, if the services of such officers or employees are rendered in connection with activities which constitute the discharge of an essential governmental function, as distinguished from a proprietary function, is exempt from Federal income tax. The compensation of such officers and employees is subject to Federal income tax if their services were rendered in connection with the exercise of a proprietary function. For example, the compensation of the governor of a state, the mayor of a city, councilmen, board of aldermen, public-school teachers firemen, and policemen is not subject to Federal income tax. The compensation of such officers and employees whose services are connected with the liquidation by the state of insurance companies or banks, which is paid from funds of the companies being liquidated, is not exempt from Federal income tax. Compensation received by employees of a municipally owned water works or street railway or electric light plant is subject to Federal income tax, as such activities are proprietary rather than governmental in

Fees for special services to a state are taxable, as, for example, compensation paid architects and builders for planning and erecting a state capitol or other state or municipal building. An officer or an employee of a state, for the purpose of the income tax law, is one whose services are continuous and not occasional or temporary.

NEW YORK, Feb. 11 .- Lou Ambers, the world's lightweight champion, has something to think about regarding his retention of his title

FROM ME TO YOU

What happened between one forty-five and two-thirty today . . . do you know? Well let me tell you . . . Nellie Brady was singing and dancing for KDKA on a national hook-up . . . yes my friends she was invited to the station to display her art and was she excellent . . . it was on the Glenn Riggs hour but don't hold that against her, they do have artists on that hour. She will make another appearance in the near future.

FLASH . . . the strike at the auto plants is definitely settled . . . maybe this will be old to you but it should be music to your ears . . . it will make some of our factories work more turns and that will all make us happy . . . everyone is happy when they are working their full share of the time.

Today is Dollar Day and it looks like the town folks are supporting the event with great enthusiasm . . . that's great, that's what the day is for.

Did you know that we have a poet right here in New Castle . . . I suppose you all know some one who claims they are verse writers but very few have the right connections . . . the one I am thinking about attends Slippery Rock college but at the present time is practice teaching here in town . . . beside writing poetry he has composed a few songs . . . including a song about flowers . . . I am not permitted at this time to mention names but I will say that his ast initial is McC.

Pardon if I get a little catty but I have been hearing things about Garfield Avenue again . . . isn't it funny how long a couple can keep their engagement a secret . . . not from their families but from the public at large . . . I am just itching to tell this bit, but a promise is a promise.
